Puzzler #16

The main idea in this puzzle, as in the game of Scrabble™, is to connect letters together to form words. A letter can be connected with any other letter that's a **knight's move** away. Add the listed point values of letters you've connected to form a word, and try to find words worth as many points as possible.

- Words can be started on any square. Squares may be used more than once.
- BLANK SQUARES: You choose the letters for the squares b3 and g6! Write the letters you wish to use for the game directly in these squares. These will always be worth 6 points.
- SCRATCH PAPER: A good thing to have on hand!
